Coffee Kiosk

Req ID	Type	Description	Priori ty	Acceptance Criteria	Rationale	Comments
FR-001	Function al	The system shall allow the customer to view the price of each drink before confirming the order.	High	When a coffee type and size are selected, the total price is displayed on-screen.	Customers must see the price before paying.	T_9: Good feature because customers can easily see and start their order
FR-002	Function al	The system shall allow the customer to cancel an order at any stage before payment.	Mediu m	A "Cancel Order" button clears the order and returns to the start screen.	Provides flexibility and reduces mistakes.	T_9: Easy way to cancel payment without any trouble.
FR-003	Function al	The system shall deduct ingredient quantities from inventory after each order.	High	After an order is confirmed, the ingredient stock is updated in the admin system.	Ensures accurate stock management.	T_9:this FR is well written
FR-004	Function al	The system shall notify the customer if a selected drink or add-on is unavailable.	High	If soy milk is out of stock, the system displays "Soy milk unavailable" immediately.	Prevents failed orders and improves user experience.	T_9:fill FR is well written
FR-005	Function al	The system shall allow staff (admin mode) to view daily sales reports.	Mediu m	A staff login displays a summary of sales by drink type and total revenue.	Helps management track performance.	T_9:fill FR is well written
NFR-001	Nonfunct ional	The kiosk screen shall remain responsive, updating selections within 1 second of input.	High	Measured response times show <1s delay for user interactions.	Prevents customer frustration.	T_9:fill NFR is well written
NFR-002	Nonfunct ional	The system shall be operational at least 99% of café working hours.	High	Uptime monitoring reports ≥99% availability during business hours.	Ensures reliability in a busy café.	T_9:fill NFR is well written

Coffee Kiosk

Alternate Flows

- 3a. Selected size unavailable:
System notifies "Selected size out of stock." Customer selects another size.
- 5a. Add-on unavailable:
System shows "Soy milk unavailable." Customer either selects another add-on or proceeds without it.
- 9a. Payment declined:
System shows "Payment failed." Customer may retry with another payment method.
- If payment fails three times, the system cancels the order and notifies the customer.
